

# What are we learning this week?

13/11/17

This week we are concentrating on topic work for our corridor displays. We have chosen to focus on the story 'Snowballs' as our display theme is 'winter'. We will be creating art work centred on snowmen and winter birds as well as winter trees.

Our Science work will focus on freezing water and melting ice.

We shall also be looking at how to care for birds in the winter and making bird feeders.

- In maths this week, we will be continuing with our addition work. We will be showing the children how to add 3 and 2 together using the Numicon. We are encouraging the children to make up number stories as they add the numbers together.

Our **Christmas Production** is in full swing. You will have a letter coming home today about Christmas production tickets. The Production is on **Wednesday 6<sup>th</sup> December** and **Thursday 7<sup>th</sup> December**.

On **Friday**  it is **Children In Need Day** and the children are invited to come wearing something **spotty**.
