

What are we learning this week?

26/3/18

Welcome to the start of a new week. This week we will be looking at Easter celebrations and talking about the Easter story. We will be sequencing the story and talking about how we celebrate Easter at home. We will be making chocolate Easter nest cakes at the beginning of the week and talking about the changes we see as the chocolate melts and then what happens as it is cooled again. On Thursday, we will be supporting Sport Relief by walking/running a mile on our playground. Thursday will be our last day and we would like to wish you all a very happy Easter. We hope you have a wonderful holiday.

In maths this week, we will be looking at shapes. We will focus on 2D and 3D shapes, naming and describing properties. You may like to follow this up at home asking, 'how many sides does each shape have?' In the car, you might like to play the game of guess my shape where you describe the shape and your child guesses - 'I have 3 sides and 3 corners what am I?'

The Easter Parade is on Wednesday 28th March starting at 1.45pm in the hall. At 1.45pm I will give a short talk on the upcoming Farm trip and the Parade will begin at 2pm. The children will do a short parade around the hall for you and then sing some spring songs. The Friends of Hazeldene will be kindly offering cups of tea and coffee as well as hot cross buns in the hall before the parade begins. When the parade finishes the children will be taken back to class by staff and parents can collect their children from the class.
