

What are we learning this week 30th April!

This week we are looking at the real superheros, the people who help us. Each day we will look at the different services starting with Firemen and women, Ambulance service, Doctors, Crossing patrol and Police. We shall be setting up areas in our Role play where they can dress up and take it in turns to help.

We have also got our special Visit from Ark farm on Thursday

In maths the children will be using number lines to fill in the missing numbers using the magnets on their boards and then have a try at writing the numbers in sequence from 1-10.

In KUW - We will be looking at the different occupations and ways of life.

Art - We are making messy art using our hands to do a print painting of our Firemen.

In literacy we will be taking a walk down to the school library to find books on people who help us.

P.E - We will be starting to look at using the fields for our lessons (weather permitting) continuing with obstacles and balance.
