

What are we learning this week

9th October!

This week we are looking at the changes in the environment. We will be looking at pictures of the Autumn weather and going on a walk around the school field to find the Autumn leaves.

We have a take away task for the children to do over the week. Can they spot any on the sheet around the local park.

In P.E. we shall be using the floor spots for dancing with the ribbons and practicing how to throw and catch.

In maths we are talking about the shape of the leaves that we are collecting, Round and tall, Big and Small.

We will also be measuring out ingredients to bake.

In Literacy we shall be looking at the Autumnal vegetables and which ones we recognise, we will then draw these.

Ascribing meanings to the marks we make.

In Art - Exploring different materials and media to make our leaves. What colours that we might need and how we can make them.

In K UW the children will be talking about what they have seen on our Autumn walk. What has happened to our trees? Where do the animals go? What has happened to their food?
