

What are we learning this week 22nd May!

This week is our last week looking at Travel and we will be finishing on hot air balloons and aeroplanes. We will be looking at Bedford's very own Cardington hanger looking at their airliner, Looking at Northampton's colourful hot air balloon show, as well as Luton airport.

We will have fun making our very own aircraft and test out their flight in the garden.

Have a lovely half term, we return on Monday 5th June.

In KUV - We will be looking at how aeroplanes and hot air balloons fly. Making our own models, talking about how they are different and how they work.

In maths this week the children will be looking at working out the order of sequence for the hot air balloons and recognising the numerals. We will also be looking at 2D shapes and naming them.

In literacy - we will be letting our imagination run and making our very own story book. Talking about what might happen in our story, adding beautiful artwork .

In art, we will be painting and cutting out hot air balloons. We will then be making paper aeroplanes. We will also be making a variety of crafts as well as printing with spaghetti.
