

What are we learning this week!

This week we are continuing with reading about winter with a focus being on Hibernation. In our literacy we shall be focusing on Rhyming and rhythmic activities, using our musical instruments to tap out Rhythmic patterns to our new rhymes.

We will be looking at animals that hibernate during the winter; we shall set up in the garden an observation station to see which birds and other wildlife might come into the garden. Talking about what foods they have to eat and can we help them, the children will be able to make a bird feeder and see what birds and other wildlife it attracts.

In maths we will be looking at ordering our Robins in number sequence starting at 1 going up to 10 and later in the week we shall be looking at writing these numbers in order.

In Art - we shall be making Robin paper plates; they will be able to mix the colours to paint the robins. We shall also be looking at different materials for the robins and decorating.

In KUW - We shall be using the computer to draw of the animals that hibernate, using the interactive white board.
