

FACES is pleased to announce the launch of our new parent to parent **Autism and ADHD** support group

The aim of the group is to offer advice and support for parents/carers, as well as signposting to other relevant services. We want to empower and instil confidence in parents/carers in order to help them understand how the diagnosis affects their children so that they are better able to advocate for them, as well as helping them to navigate their way through all of the 'professional jargon'!!

During some sessions, we will have guest speakers in to discuss various topics pertaining to different aspects of your child's diagnosis.

Please keep an eye out on our Facebook page for updates.
