

What are we learning this week?

19/4/17

This week we will our Stunning Start to our topic 'A Bug's Life'. To celebrate the start of the topic we will be looking at the information the children gathered at home on their favourite bug/insect. This week, we will be encouraging the children to talk about their researched bug and also to look for answers to the questions generated with your help.

We will be going on a bug hunt around the school environment and recording what we find on picture and tally charts. Our writing will focus on speech bubbles to explain what we saw on our hunt.

In art, we will be making handprint spider puppets. If you have been out and about and have found some Mini beasts please feel free to send in photos or drawings your child may create.

Thank you for your support.

We have some exciting Child Initiated Tasks planned this week, including:

- Exploring soil with pretend Mini beasts hidden.

In Maths this week: we will be looking at doubling legs on Mini beasts as well as doubling spots on Ladybirds.

Earth Day 2017 takes place on Friday 21st April. Our theme is '**Love Our Green Spaces**'. We will be encouraging all of us to enjoy and respect the gardens, parks and natural environments around us.

Outside games will take place on Friday afternoon for both classes; please can you ensure all PE kits are in this week with warm tops. Thank you
