

What are we learning this week?

20/11/17

This week we will be continuing our look at People who help us. We will be focusing on Dentists and how to look after our teeth. Our Knowledge and Understanding work will concentrate on healthy foods including looking at different fruits and vegetables.

We will be continuing with our Christmas Production rehearsals. Please keep sending in costumes in a named carrier bag and we hope you have all started to collect your tickets!

On **Friday** we have another Mufti day whereby the children can come to school on the day dressed in 'weekend clothes' in aid of the Friends Christmas Fair donations.

In Maths this week we will be looking at **2d** shapes and observing to see if the children can name them: squares, circles, triangles, rectangles. You might like to go on a shape walk with your child at home seeing in you can find shapes to name. Questions you might ask: Is it a flat shape? How many corners does it have? Which shapes have straight sides? Curved sides? How many corners does a square have? How is a rectangle different to a square? We will then move onto looking at **length**. You might like to hunt for sticks asking 'which one is longer, shorter, longest, and shortest?'
